DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Kenmotsu (JP Patent No. 405032138.)

Claim 1:

Kenmotsu discloses a device installation apparatus for mobile body comprising:

- a. An installing means 5, which is provided in a position sandwiched between the driver's seat 1 and an assistant driver's seat 2, and is able to disposed therein a desired device 6, and
- b. A guide means, which the installing means is fastened to, for guiding the installing means along the longitudinal direction of the mobile body.

Claim 12:

The installing means and the guide means are disposed on a floor portion of the mobile body.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

2. Claims 1- are rejected under 35 U.S.C. 103(a) as being unpatentable over Kenmotsu (JP Patent No. 405032138.)

Claim 6:

The installing means 5 has a space therein for housing a device 6. The mounting/dismounting means is not provided in an internal portion; however, it would have been obvious to one skilled in the art that mounting/dismounting means 7 in the reference functions equivalently regardless of its location.

Allowable Subject Matter

3. Claims 2-5, 7-11, and 13-15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
